EDUCATION

Higher Secondary

Vani Vidyalaya Metric Hr sec School
Overall 97 %

06/2021 – 04/2023 | Erode,India

BE Computer Science And Engineering

Coimbatore Institute Of Technology
CGPA - 8.48*

08/2023 – 05/2027 | Coimbatore, India

SKILLS

Frontend web development

- HTML
- CSS
- Javascript
- reactjs

backend & server

- expressjs
- nodejs

DataBases

- Mysql

Others

- Data Structures
- Algorithm and Analysis
- Object Oriented Programming
- Design thinking
- Computer Arhitecture & Operating Systems

Programming languages

- Java
- c

Tools

- Git

PROJECTS

AI-Powered Role-Aware ATS Platform

Machine Learning-Retrieval Augmented Generation (RAG) & Llama-3.3-70b-versatile

07/2025 – 04/2026

AI-driven resume evaluation platform that performs role-specific ATS scoring using Retrieval-Augmented Generation (RAG) and LLM-based reasoning. Implemented multi-level resume parsing, metadata-aware knowledge retrieval, skill gap analysis, and personalized learning path generation with separate student and recruiter dashboards.

Streamlit Price Spread Predictor

Python, Streamlitscikit-learn & joblib

03/2025 – 04/2025

Developed a Streamlit-based application to predict optimal purchase and export quantities for agricultural products. Implemented city-wise profit analysis, interactive visualizations, and downloadable detailed reports including graphs.

E-Commerce Website

JSP & Servlets , Apache Tomcat

09/2025 – 11/2025

Developed a JSP/Servlet-based e-commerce web application for buying and managing car parts. Implemented user authentication, product catalog, shopping cart, balance management, order placement, and an admin dashboard with CRUD operations.

ACHIEVEMENTS

Internal Finalist – Smart India Hackathon 2025 (Team ID 62898)

Developed *SustainaFarm*, a gamified digital platform promoting sustainable farming practices through AI-driven crop guidance, simulation mode, real-time tracking, and eco-score based reward system.

Top 25 Finalist – TechSprint 2025 (Google)

Selected among top 25 teams for developing *Academics Ghostwriter*, an intelligent academic assistance platform focused on structured content generation and productivity enhancement.

LEADERSHIP & EXPERIENCE

DESIGN HEAD - CRYPTERA 2K26

Designed event posters and pamphlets (Canva) and edited promotional reels (CapCut), ensuring cohesive branding and timely marketing execution.

National Entrepreneurship Challenge (NEC) 2024 – Entrepreneurship Cell, IIT Bombay

Participated in a national-level entrepreneurship competition, collaborating with a team on startup ideation and business strategy. Gained exposure to innovation, leadership, and India's startup ecosystem through structured entrepreneurial activities.

Event Coordinator – ASCII, Dept. of CSE (2025-2026)

Coordinating technical events and workshops for the Computer Science department, including planning, organizing, and ensuring smooth execution to enhance students' skills.
